

New Suppliers – Request B2B Access to Your COFOR

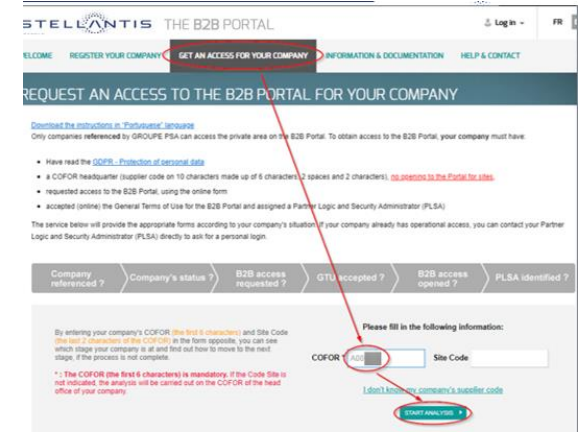

Process for a Supplier to Request COFOR B2B / ORION Access

- In preparation for the New Stellantis Supplier Portal the existing B2B Portal Public page will be removed.
- Old / Existing training documents may show that suppliers should access the B2B Portal Public page to request B2B access for their company as shown on the right.
- B2B users who use existing B2B links will be redirected to the new Stellantis Supplier Portal as shown on next slide so they will not be able to follow this old process.
- When the B2B Public Page redirects supplier users to the new Stellantis Supplier Portal landing page they should follow the process on the following slides.

B2B Access

Suppliers clicking B2B Public page links will be redirected to the new Stellantis Supplier Portal Landing page displayed above. In the future suppliers will click the 'Request Access' button to request B2B access for their new COFORs. **However, this feature will not be available initially**, so suppliers will request B2B access as shown on the next slide.

B2B Access

- Until the 'Request Access' button is enabled, suppliers will request B2B access by emailing the B2B team the data displayed at the right. The email address is: inscription-b2b-portal@stellantis.com
A form containing this information will be available on the 'Help Guide'
- Note this manual email process will only be in place temporarily until cutover to the new Stellantis Supplier Portal is completed and the icon on the previous screen will be active.
